# Notice Concerning the Environmental Use Control Program

#### **Background**

Governor Sebelius signed House Bill 2247 April 21, 2003. This bill establishes the use of environmental use controls for property with environmental contamination above unrestricted use standards. The bill was developed by KDHE, which had worked with a stakeholder committee in the fall of 2002. This committee consisted of the following stakeholders: Kansas Association of Counties, Sierra Club, Kansas Agricultural Remediation Board, Westar Energy, Kansas Agribusiness Retailers Association, Department of the Army, Kansas Natural Resource Council, Kansas Farm Bureau, Kansas Livestock Association, City of Wichita, Petroleum Marketers Association, Kansas Petroleum Council and KDHE. The bill was introduced during the 2003 Legislature and was subsequently passed by the House 111 to 12 and by the Senate 34 to 0. House Bill 2247 became law on July 1, 2003. New sections of HB 2247 are now referred to as Kansas Statutes Annotated 65-1,221 through 65-1,235.

Environmental use controls are commonly known as institutional controls intended to restrict or prohibit human activities and property use in such a way as to prevent or reduce exposures to contamination. Some examples of environmental use controls include: preventing disturbance of soil caps, covers, berms, etc.; prohibiting the drilling of water wells for domestic or other purposes; restricting and providing notification during utility excavation of an area; restricting use of a property for residential purposes; and restricting access to the property.

The bill, which was specifically written for property with environmental contamination, provides a mechanism for a landowner with contaminated property to voluntarily restrict certain activities to mitigate the risk posed to human health and the environment from contamination at their property. The landowner would apply to KDHE for such restrictions.

#### **Report Summary**

In accordance with K.S.A. 65-1,233, the Department of Health and Environment shall publish annually in the Kansas Register a summary of the number of approved environmental use control agreements pursuant to the act. This annual report describes the activities accomplished by KDHE for the period of July 31, 2003 to December 31, 2003.

K.S.A. 65-1,232 provides that the secretary of KDHE shall adopt rules and regulations to implement the provisions of the act. In response to this provision, KDHE initiated the process by convening a stakeholder committee to provide input in the development of regulations. The committee, consisting of representatives of the stakeholder group involved in the legislative process, has met on two occasions. The group met with KDHE October 14, 2003, to discuss the collective review of the first set of draft regulations. The group met again November 18, 2003, for further discussion and refinement of the draft regulations. The next meeting of the regulation development committee is anticipated to be scheduled for January 2004. KDHE anticipates having the draft regulations in a form to be issued by KDHE to the formal regulation promulgation process in mid-2004.

KDHE staff have been working on developing an Environmental Use Control (EUC) Program utilizing federal grant funding. The EUC Program will be managed within the KDHE's Bureau of Environmental Remediation. Staff have initiated developing program procedures and guidance, inspection forms, a tracking system, fact sheets and an EUC application form. Staff also have conducted presentations to interested groups and will initiate a public awareness campaign to educate the public about the program and its benefits.

As of December 12, 2003, two applications have been received by the department. The department is processing those applications in accordance with the statutes. There have been no environmental use control agreements that have been issued by the department.

Notice Concerning the Voluntary Cleanup and Property Redevelopment Program

**Background** 

The Voluntary Cleanup and Property Redevelopment Act was enacted by the Kansas Legislature July 1, 1997 (Kansas Statutes Annotated 65-34,161 through 65-34,174). The purpose of the Act is to allow voluntary cleanups of contaminated properties with oversight by the Kansas Department of Health and Environment to promote the transfer, redevelopment and reuse of contaminated properties and protect public health and the environment. Article 71 of the Kansas Administrative Regulations, specifically K.A.R. 28-71-1 through 28-71-12, was promulgated June 26, 1998, officially establishing the Voluntary Cleanup and Property Redevelopment Program (VCPRP). The law and program is administered by the Kansas Department of Health and Environment.

Under the VCPRP, stakeholders performing cleanup of contaminated properties that meet the criteria in the law (low to medium priority sites with minimal risk) can receive a "no further action" determination from the department to provide some protection from potential liabilities. Adjacent property owners who did not contribute to the contamination also may receive protection from the department through such determinations. A streamlined process is utilized to address these sites in an expeditious manner to encourage the redevelopment or enhancement of such properties. Clearly-defined cleanup standards that identify the extent of cleanup have been developed and are provided to the voluntary party early in the program so the time and costs involved in cleanup can be determined. The VCPRP is truly voluntary and is designed for industry and businesses to properly address contamination on their property through a private/state partnership. There are no additional burdens or requirements placed on voluntary parties that participate in the program.

A Memorandum of Agreement (MOA) between KDHE and Region VII of the United States Environmental Protection Agency was executed effective March 2, 2001. The MOA provides the EPA's acknowledgment of the adequacy of Kansas' VCPRP program. The MOA also provides assurances to voluntary parties that there will be no federal involvement at properties properly addressed in the VCPRP. The additional assurance from the EPA enhances the department's actions in issuing a no further

action (NFA) determination in terms of appeasement of environmental liability.

**Report Summary** 

In accordance with K.S.A. 65-34,173, the Department of Health and Environment shall publish annually in the Kansas Register a summary of the number of applicants, the general categories of those applicants and the number of cleanups completed pursuant to this act. This annual report describes the activities accomplished by the department in the VCPRP for the period of December 31, 2002 to December 31, 2003.

Since the inception of the Voluntary Cleanup Program on July 1, 1997, the department has received a total of 311 completed application packages of which 300 properties have been determined eligible to participate in the program. A total of 298 voluntary agreements have been signed. Voluntary cleanup investigations have been initiated and/or completed at 271 properties. Currently, 104 properties have entered the cleanup phase in either the preliminary cleanup proposal process, cleanup planning stage or the active cleanup phase; cleanups have been completed at 21 properties. To date, the department has issued a total of 72 NFA letters.

As of December 11, 2003, a total of 42 applications have been received by the VCPRP. The monthly average of new applications received by the department during the 2003 calendar year was 3.5 applications per month, which is the same monthly average as in 2002. The monthly average of new applications since the inception of the program is 4.2 applications per month. The slightly lower monthly average in 2002 and 2003 is likely attributable to economic-related factors, such as less business/property transactions occurring in the state than in previous years.

NFAs are issued for properties at various points in the VCPRP process, including: (1) following cleanup of contamination; (2) following investigation that indicates no or insignificant contamination; and (3) when a property might be impacted but the contamination is determined to have originated from an off-property source. The number of NFAs issued by the department for the 2003 calendar year was 13, which is slightly higher than the average number of NFAs issued by the department per year since the inception of the program, which is 11.8 NFAs issued per year.

Approximately 75 percent of the properties participating in the VCPRP are from three primary industrial categories, which include the oil and gas industry at 32 percent of the total, manufacturing at 22 percent and agri-business at 21 percent. Participation by other categories include commercial at 9 percent, railroad at 9 percent, government at 3 percent and private citizens at 4 percent.

Tables 1 and 2 summarize the number of applicants, the general categories of those applicants and the number of voluntary actions completed pursuant to K.S.A. 65-34,161 through 65-34,174. Figure 1 depicts the cumulative voluntary actions within the VCPRP, and Figure 2 depicts the percentage of applications received relative to applicant category.

Facility Description: The proposed action is to re-public notice a draft permit for an existing wastewater treatment facility treating primarily domestic wastewater. The draft permit was initially public noticed on August 21, 2003. After further review of the draft permit, KDHE determined that the fecal coliform limits on the combined outfall 001X also were in error. This public notice corrects both errors - removing the fecal coliform limit on the internal outfall 001M and reducing the fecal coliform limit on the combined effluent outfall 001X. There are no other changes to the draft permit as public noticed on August 21, 2003. Facility Name: Western Plains Energy, LLC - Ethanol Plant

Facility Description: The proposed action is to issue a new permit for operation of a new wastewater treatment facility treating primarily process wastewater. This facility uses grain (primarily corn) to manufacture ethanol by natural fermentation. The resulting products include 200-proof ethanol, animal feed and CO2. Ethanol is blended with gasoline to yield oxygenated gasoline. The animal feed is sold either as dried distillers grains and solubles (DDGS) or wet cake (WEGS). CO2 will be initially vented to the atmosphere but may, in the future, be captured and sold as a product. About 73,000 gallons/ day of wastewater consisting of reverse osmosis concentrate, cooling tower blowdown, and softener backwash and regenerate are discharged from outfall 001. Domestic wastewater is connected to a septic tank/lateral field system. The proposed permit includes limits for total residual chlorine, total selenium and pH. Monitoring of temperature, chloride, sulfate, biochemical oxygen demand, total suspended solids, total recoverable metals and effluent flow also will be required. In addition, the permittee is required to conduct a chronic whole effluent toxicity test once before September 1, 2004.

The permit includes a schedule of compliance requiring the permittee to (1) develop and implement a stormwater pollution prevention plan within one year of the effective date of this permit; (2) construction on an approved earthen polishing pond by August 31, 2004; and (3) submit, by April 1, 2004, a completed water treatment chemical evaluation log. The permit requirements are pursuant to the Kansas Surface Water Quality Standards, K.A.R. 28-16-28(b-f), and Federal Surface Water Criteria, and are water-quality based.

Persons wishing to comment on or object to the draft permits and/or permit applications must submit their comments in writing to the Kansas Department of Health and Environment if they wish to have the comments or objections considered in the decision making process. Comments or objections should be submitted to the attention of Glenda Newquist for agricultural permits or applications, or to the permit clerk for all other permits, at the Kansas Department of Health and Environment, Division of Environment, Bureau of Water, 1000 S.W. Jackson, Suite 420, Topeka, 66612-1367.

Please refer to the appropriate Kansas permit number (KS-AG-04-024/033, KS-04-011/018) and name of applicant/application as listed when preparing comments.

If no objections are received during the public notice period regarding any proposed permit, the Secretary of Health and Environment will issue the final determination regarding issuance or denial of the proposed permit. If response to this notice indicates significant public interest, a public hearing may be held in conformance with K.A.R. 28-16-61 (28-46-21 for UIC). Media coordination for publication and/or announcement of the public notice or public hearing is handled by the Kansas Department of Health and Environment.

Any persons wishing to enter the drawing who have not yet done so, shall immediately place their tickets into the receptacle or drum at this time.
- (b) The co-sponsor or person designated by the executive director shall announce that entries into the "State Fair Drawings" are closed. No further entries will be accepted. If sealable, the drawing receptacle or drum shall then be sealed.

- (d) Daily drawings shall be conducted only from valid entries placed in the receptacle or drum at the state fair lottery location. After the first daily drawing, subsequent daily drawings shall be drawn from entries received from the close of each daily drawing until the close of the next daily drawing. Following each daily drawing, lottery security shall remove all entries for the just completed drawing from the receptacle, and retain custody of the tickets until they can be destroyed.

- (g) The selection of "State Fair Drawings" winners shall be accomplished by the individual designated by the executive director, using a bare arm technique, while looking away from the receptacle and removing only one ticket from the receptacle in which all entries were placed. The lottery security officer present and the lottery draw manager shall review the selected ticket to determine if the name stated on the information form located on the

back of the selected ticket is legible and whether the ticket is valid. This process shall be repeated until five valid entries have been drawn.

- (h) The named person is not required to be present in order to win the "State Fair Drawings" prizes described in K.A.R. 111-4-879. The security person conducting the drawing shall be responsible for the final determination concerning the legibility of the name on any ticket drawn and its validity.
- (i) The five persons whose tickets have been drawn from the receptacle or drum and who meet the entry and validation requirements at each drawing shall be determined "State Fair Drawings" winners.
- (j) Each winner shall be given or mailed a prize claim form to be completed and returned to the lottery within 45 days of the drawing.
- (k) If the name on any ticket drawn is not legible or there is insufficient information on the information form, the ticket drawn will be void and the selection process shall be repeated until a valid ticket eligible for the drawings identified in K.A.R. 111-4-877 is selected.
- (l) After five valid entries have been drawn for each daily drawing, five additional tickets shall be drawn following the procedure in subsection (g) above and given to lottery security to hold as alternates designated as 1A, 1B, 1C, 1D, and 1E in the event any of the tickets previously drawn do not meet entry or validation requirements or the prize winners cannot be located by telephone or United States mail within 30 days of the drawing. The alternate tickets, if used, will be utilized in order drawn. (Authorized by and implementing K.S.A. 74-8710; effective, T-111-7-22-96, July 19, 1996; amended, T-111-8-25-97, Aug. 15, 1997; amended, T-111-6-8-00, May 12, 2000; amended, T-111-1-12-04, Dec. 9, 2003.)
- **111-4-1448.** Determination of "Country Stampede Drawing" winners. (a) At least five minutes before the drawing, the person designated by the executive director shall announce to the audience that the winner selection process will begin. - (c) The receptacle or drum shall be closed prior to the drawing. If a receptacle other than a drum is used, tickets in the receptacle shall be thoroughly mixed with a shovel or by other means. If a drum is used, it shall be rotated a minimum of 10 times to ensure random selection.
- (d) The executive director shall designate one individual of his choice to participate in the selection process.
- (e) At approximately 8:00 p.m., the selection of "Country Stampede Drawing" winners shall be accomplished by the individual designated by the executive director, using a bare arm technique, who shall remove one ticket from the receptacle or drum while looking away from the receptacle or drum in which all entries were placed. A person representing the executive director and a person

representing Kansas lottery security, shall review the selected ticket to determine if the name stated on the information form located on the back of the selected ticket is legible. If the name is determined to be legible, the name of the winner shall be announced to the audience.

This process shall be repeated until 10 valid winners have been selected. Three additional entries shall be drawn which will serve as alternate entries in the event one or more of the original winners cannot be located or may be determined to ineligible, and will be marked in the order drawn as 1A, 1B, and 1C. Alternate entries will be used, if necessary, in the order drawn.

- (f) The named person is not required to be present in order to win the "Country Stampede Drawing" prizes described in K.A.R. 111-4-1446. The security representative conducting the drawing shall be responsible for the final determination concerning the legibility of the name on any ticket drawn, and validity of the entry, but regardless of the number of entries a person whose name appears on a valid entry drawn in the "Country Stampede Drawing" has made, he or she shall not be eligible to win more than one prize. The first prize winning ticket drawn for such an entrant invalidates all other entries for the "Country Stampede Drawing" for that entrant.
- (g) A person whose valid ticket has been drawn from the receptacle or drum at each drawing shall be determined a "Country Stampede Drawing" winner.
- (h) Each winner of a prize as a result of the drawing shall return to lottery headquarters a completed claim form as provided by the lottery no later than 5:00 p.m. on the forty-fifth day following the drawing or the person named on the ticket drawn will no longer be eligible for the prize. In such an event, the first eligible alternate entry drawn pursuant to subsection (e) herein shall be declared the winner of that prize;
- (i) If the name on any ticket drawn is not legible, the ticket drawn will be void and the selection process shall be repeated until a valid winning ticket is selected. (Authorized by and implementing K.S.A. 74-8710; effective, T-111-5-5-99, April 23, 1999; amended, T-111-8-20-02, Aug. 14, 2002; amended, T-111-1-12-04, Dec. 9, 2003.)

- (b) The drawing official shall announce that entries into the drawing are closed. No further entries will be accepted.
- (c) Tickets in the receptacle shall be mixed thoroughly with a shovel or by other means or the drum shall be rotated a minimum of 10 times to ensure random selection.
- (d) The drawing official shall designate one individual of his or her choice to participate in the selection process.
- (e) The selection of drawing winners shall be accomplished by the individual designated by the drawing official, using a bare arm technique, removing one ticket

from the drawing receptacle at the time stated on the notice provided as set forth in K.A.R. 111-4-2073(a). A designated drawing official and a person representing Kansas lottery security, shall review the selected ticket to determine if the name stated on the information form located on the back of the selected ticket is legible. If the ticket is determined to be valid and eligible to win and the name is determined to be legible, the name of the winner shall be announced to the audience. This process shall be repeated until three valid winners have been selected. Each valid entry drawn shall be marked in the order drawn, 1, 2, and 3.

- (f) After the tickets have been drawn and each entry has been verified as valid by lottery security, three more entries will be drawn, one at a time, to serve as alternate entries. The alternate entries will be marked in order drawn, 1A, 2A, and 3A. The alternate ticket entries will be used only if the original winners cannot be located or are declared ineligible, or fail to present a fully-executed claim form as required herein. The alternates will be used, if necessary, in the order drawn.
- (g) The first valid winner selected shall be awarded a prize of a \$500 gift certificate to Westridge Mall, Topeka, Kansas. The second valid winner selected shall be awarded a prize of a \$300 gift certificate to Westridge Mall, Topeka, Kansas. - (h) The named persons are not required to be present in order to win the drawing prizes. The security representative conducting the drawing shall be responsible for the final determination concerning the eligibility of any ticket drawn. The first prize winning ticket drawn for each entrant invalidates all other entries for the drawing for that entrant.
- (i) Each winner of a prize as a result of the drawing shall return to lottery headquarters a completed claim form as provided by the lottery no later than 5:00 p.m. on the forty-fifth day following the drawing or the person named on the ticket drawn will no longer be eligible for the prize. In such an event, the first eligible alternate entry drawn pursuant to subsection (f) herein shall be declared the winner of that prize. (Authorized by and implementing K.S.A. 74-8710; effective, T-111-12-05-03, Nov. 19, 2003; amended, T-111-1-12-04, Dec. 9, 2003.)

#### **Article 5.—MULTI-STATE ON-LINE GAMES**

- **111-5-96.** Determination of "Powerball Instant Millionaire Game Show" winners. The following process shall be used for the selection of winners in the "Powerball Instant Millionaire Game Show" drawings:
- (a) Kansas lottery personnel shall pick up all mail containing entries for the "Powerball Instant Millionaire Game Show" at the United States Post Office in Topeka,

Kansas, with the final pick up at the Topeka post office in the morning mail pickup on the Tuesday next preceding each scheduled drawing. Following each such morning mail pickup, the envelopes containing mailed entries will be transported to lottery headquarters and opened by lottery personnel. All mailed entries and entries deposited at other locations as may be specifically designated by the lottery shall be securely stored by lottery personnel until such time as the entries are placed in the drawing receptacle or drum.

- (b) The drawing shall be held at Kansas lottery headquarters and shall be open to the public with lottery security personnel present. The drawing shall be audio and
- video taped.
- (c) At each scheduled drawing, lottery security personnel will be present with the person designated by the executive director to perform the drawing. Prior to the drawing, if a drum is used, the drum shall be sealed and the contents mixed by rotating the drum at least 10 times. If a receptacle other than a drum is used, the contents shall be mixed thoroughly with a shovel or by other means prior to the drawing.
- (d) The designated individual shall then unseal the drum, if a drum is used, and using the bare-arm technique, while looking away, remove one entry from the receptacle or drum. The person whose name appears on the entry shall be the winner of the on-air prize package for the first available taping of the "Powerball Instant Millionaire Game Show" as identified in K.A.R. 111-5-95, subject to validation by the lottery as set forth in these rules. If valid, the entry shall be marked in such a way as to identify it as the winner for the applicable drawing and taping. This procedure shall be repeated for each game show taping for which entries are being drawn.
- (e) After the required number of valid on-air winning entries have been selected, the drawing process shall continue until a pre-determined number of valid entries has been drawn to win the at-home prizes for each of the same game show tapings as identified in K.A.R. 111-5-95. Each valid entry shall be marked in numerical order drawn and in such a way as to identify it as one of the at-home winners for the applicable drawing and taping.
- (f) After said on-air and at-home winning entries have been drawn, and the entries have been verified as valid, 10 more entries will be drawn, one at a time. The last 10 entries drawn will serve as alternate entries for the winners selected in that drawing. The alternate entries will be marked in order drawn, 1A, 2A, 3A, 4A, 5A, 6A, 7A, 8A, 9A, and 10A, and otherwise identified as having been selected for the applicable drawing. The alternate entries will be used only if one or more of the original winners cannot be located or is declared ineligible, or fails to timely present a fully-executed claim form to lottery headquarters, or is elevated to be an on-air winner. If an on-air winner cannot be located, is declared ineligible, or fails to timely present a fully-executed claim form to lottery headquarters, the next selected at-home winner for that taping shall be declared the winner, subject to the claim procedure as set forth in K.A.R. 111-5-97. If an athome winner cannot be located, is declared ineligible, or fails to timely present a fully-executed claim forms to lot-

tery headquarters, or is elevated to be an on-air winner, the next selected alternate winner shall be declared the winner, subject to the claim procedure as set forth in K.A.R. 111-5-97. The alternates will be used, if necessary, in the order drawn. If an alternate winner cannot be located, is declared ineligible, or fails to timely present a fully-executed claim form to lottery headquarters, the alternate winner process shall be repeated until the prize is properly claimed or until such time as no alternate winners remain, whichever occurs first.

(g) The Kansas lottery security official present shall review each ticket drawn to determine the validity of the entry into the "Powerball Instant Millionaire Game Show" drawing in accordance with these regulations. If it is a valid entry and the name is legible, the event manager and the security person present shall record the name of the winner and the prize won.

(h) If the entry is determined to be ineligible, it shall be discarded by the security person present and another entry drawn, except that if the sole reason for ineligibility is because the person named thereon was determined to be a winner for the next preceding taping, then said entry shall be returned to the drawing receptacle. This procedure will be repeated until valid selections are obtained.

(i) All entries remaining in the drum or receptacle after the winners and alternates have been selected, and all entries not received in compliance with these rules, shall be destroyed pursuant to K.A.R. 111-3-34. (Authorized by and implementing K.S.A. 74-8710; effective, T-111-7-15-02, June 21, 2002; amended, T-111-8-20-02, Aug. 14, 2002; amended, T-111-9-9-03, July 16, 2003; amended, T-111-12-04, Dec. 9, 2003.)
